

Partner Kit

Splexus Partner Programme

Everything you need to introduce Splexus Redume, the IIC Frontier Programmes and campus partnerships, professionally and with confidence.

WhatsApp Business: +91 85764 73636 | hello@splexus.in | splexus.in | Instagram: [@splexus_in](https://www.instagram.com/splexus_in)

Version 1.0 | October 2026 | This kit is a summary. The Partner Terms apply in full.

Welcome to the Splexus Partner Programme

Introduce students, freshers and professionals to Splexus Redume, India's verified career identity platform, and earn commission on every successful registration. You work independently and on your own schedule. There are no fixed hours and no targets, and you are paid for results.

How the programme works

- **Open to everyone.** There are no restrictions on who can partner: students, freshers, professionals, freelancers, homemakers, men and women. You must be 18 or older and complete KYC (PAN and bank verification).
- **Independent and flexible.** Partners are independent associates, not employees. No fixed hours, no targets, no exclusivity.
- **Single-tier and performance-based.** You earn only on customer sales. There are no joining fees, no kit fees, and no earnings for recruiting other partners.
- **Customers pay Splexus directly.** Partners never collect money. Every payment is made by the customer on the official Splexus platform.
- **Fast, transparent payouts.** Commission is paid to your verified bank account within 7 days of the customer's payment being confirmed, and every referral, visit and payout is visible on your dashboard.

Your three tracks at a glance

Track	What you earn	When you are paid
1. Referral Partner	₹350 for every successful Redume registration (Student, Fresher or Professional Plan)	On first-year registrations paid on the official platform
2. Programme Partner	15% of the programme fee (excluding GST) on every IIC Frontier Programme enrolment	On payments actually received; released as EMI instalments are received
3. Campus Partner	₹1,000 for every 2 verified college visits, plus ₹350 for every student from those colleges who joins and pays	Visit fee for every 2 verified visits; commission only on successful payments

You can combine tracks. Many partners combine referrals with programme enrolments. A single student earns one commission only: the campus commission or the standard referral commission, not both.

Track 1: Referral Partner

Earn ₹350 for every successful Redume registration.

Share your unique referral link with students, freshers and working professionals. When they register and pay on the official Splexus platform, you earn.

Plan referred	Plan price	Your commission
Student Plan	₹1,999 / year	₹350
Fresher Plan	₹2,999 / year	₹350
Professional Plan	₹4,999 / year	₹350

- Commission is paid on first-year registrations. Renewals are not covered.
- Unique Partner ID and referral link; live tracking of every referral on your dashboard.
- No limit on the number of referrals.

Best for

Senior students, mentors, trainers, freelancers, community and group admins, HR consultants, homemakers and anyone who can introduce Splexus to students or professionals.

Partner tiers

Tiers reward partners who stay active. Your tier is based on your own successful registrations each quarter. Higher tiers earn a higher rate per registration, priority leads and a quarterly bonus.

Tier	Per-registration rate	What you get
Bronze	₹350	Standard rate, partner dashboard and training
Silver	₹400	Higher rate, priority leads and a quarterly bonus
Gold	₹450	Highest rate, priority leads and a quarterly bonus

Tiers apply to Referral Partner registrations. Rates are illustrative; the registrations needed for each tier and the quarterly bonus amounts are shared at onboarding. Tiers depend only on your own customer registrations, never on recruiting other partners.

Milestone rewards

Beyond commission, partners who bring in more paid registrations unlock rewards with real value, up to free access to an IIC Frontier Programme worth ₹1,00,000.

Paid registrations (12 months)	Your reward	Worth
25	Splexus voucher	₹500
50	Redume Professional Plan, free for 1 year	₹4,999
100	IIC Frontier Programme voucher	₹25,000
250	Free access to an IIC Frontier Programme (credit toward any programme; balance payable if the fee is higher)	Up to ₹1,00,000

Registrations from your referral link and college codes both count. Only paid, non-refunded registrations are counted, once the refund period has ended. Rewards are personal, non-transferable, have no cash value and are redeemable only on Splexus products. Vouchers are valid for 12 months; programme access is subject to the standard admission assessment and cohort availability. Earned on your own customer registrations only, never for recruiting other partners.

Track 2: Programme Partner

Earn 15% on every IIC Frontier Programme enrolment.

Refer learners to Splexus IIC Frontier Programmes: AI Engineering, Autonomous Systems, Quantum Computing, AI Cybersecurity, AGI Safety & Alignment and the Quantum-AI Master Track. You earn **15% of the programme fee (excluding GST) on payments actually received.**

Programme fee (excl. GST)	Your commission (15%)
₹1,00,000	₹15,000
₹1,25,000	₹18,750

- You introduce; our admissions team counsels and enrolls; you earn on successful enrolment.
- For instalment (EMI) enrolments, commission is released as instalments are received.
- Commission applies to successful, paid enrolments only. Confirm current programme fees on splexus.in.

Best for

Education counsellors, career mentors, coaching centre owners, tech trainers and alumni networks.

Track 3: Campus Partner

Earn ₹1,000 for every 2 verified college visits, plus ₹350 for every student who joins and pays from a college you visited.

Represent Splexus at colleges in your city. Visits are offered on our schedule, and you choose which ones to accept. You meet the Placement Officer, Principal or whoever leads placements, and explain how Redume, BuildOps™, WorkProof™ and the IIC programmes help their students. Complete 2 verified college visits to earn the ₹1,000 visit fee.

On a visit day

1. Accept a scheduled visit from the partner dashboard
2. Meet the Placement Officer, Principal or placement head
3. Present Splexus using the official pitch deck and demo
4. Capture a geo-tagged photo at the college as proof of visit
5. Submit a short visit report (who you met, outcome, next steps)

What you earn

Item	Earning
Every 2 verified college visits	₹1,000 per 2 visits
Each student from that college who registers and completes payment	₹350 per student

- The ₹1,000 visit fee is paid for every 2 verified college visits. If no students join, you earn the visit fee and no commission.
- Commission is paid only on successful payments. A student who registers but does not pay earns you nothing.
- Each college gets a unique code, so every student is tracked to the partner who visited it.
- One partner per college, so there are no overlapping claims.
- A student earns one commission only: the campus commission or the standard referral commission, not both.
- You also get an official Partner ID, a pitch kit and branded materials, and your visit schedule shared in advance.

How much can you earn?

Formula: ₹1,000 per 2 verified visits + (₹350 × students who join and pay)

Example: 2 colleges visited (students counted across both colleges)

Students who join and pay	Visit fee	Student commission	Total you earn
0	₹1,000	₹0	₹1,000
1	₹1,000	₹350	₹1,350
100	₹1,000	₹35,000	₹36,000
500	₹1,000	₹1,75,000	₹1,76,000
1,000	₹1,000	₹3,50,000	₹3,51,000
2,000	₹1,000	₹7,00,000	₹7,01,000

Examples are for two colleges and are illustrative. Income is not guaranteed and depends on actual verified visits and successful student payments.

Best for

Final-year students, recent graduates, B.Tech and MBA alumni, and freelancers wanting flexible earning days. Registering yourself is not eligible for commission.

Know the product

You introduce a verified career identity platform, not a resume tool. Know these three things well.

Splexus Redume

Splexus Redume is a verified career identity: one ID that carries a person's education, skills and work history, with employer verification rather than self-declared claims. Recruiters see verified information instead of an unverified document.

Plan	Price	Who it is for
Student Plan	₹1,999 / year	Students building a verified profile from their first year
Fresher Plan	₹2,999 / year	Freshers starting their careers
Professional Plan	₹4,999 / year	Working and experienced professionals

BuildOps™

BuildOps is engineering infrastructure for builders: build real systems, solve engineering problems, test, deploy and evaluate, and keep structured evidence of the work.

IIC Frontier Programmes

Part-time-friendly, practitioner-led programmes in AI Engineering, Autonomous Systems, Quantum Computing, AI Cybersecurity, AGI Safety & Alignment and the Quantum-AI Master Track. Easy 6-month EMI is available. Admissions are handled by the Splexus admissions team.

Always use official links. Share only your unique referral link or college code. Direct anyone with detailed questions to splexus.in or WhatsApp +91 85764 73636.

Pitch guides

Use these as a starting point and say it in your own words. Be honest, be specific, and let the product speak.

For a student or fresher

"Hi, I'm [name], a Splexus Partner. Splexus Redume gives you one verified career profile, so your skills, projects and experience are verified rather than self-declared, and recruiters can trust what they see. The Student Plan is ₹1,999 a year (Fresher Plan ₹2,999). You register and pay directly on the Splexus website; I can share my link if you would like to look."

For a working professional

"Hi, I'm [name], a Splexus Partner. If you are exploring new roles, Splexus Redume lets you carry a verified work history that employers can trust, so you are seen on the strength of your real experience. The Professional Plan is ₹4,999 a year, paid directly on the official platform. Happy to share my link."

For a Placement Officer or Principal

"Good morning, I represent Splexus. We help students build a verified career profile through Splexus Redume, give engineering students a place to build and evaluate real projects through BuildOps, and offer frontier-technology programmes. I would like to show you a short demo and leave our materials. If your students find it useful, they can register with your college's code."

Handling common questions

If they ask	You can say
Is this guaranteed to get me a job?	Splexus gives you a verified profile and better visibility. I cannot promise placements, salaries or offers, and nobody should.
Can I pay you directly?	No. All payments are made on the official Splexus platform.
Is the price negotiable?	Prices are set by Splexus. I can share the current details from splexus.in.

Visit-day checklist and report

Before the visit

- Accept the visit from your partner dashboard and note the date and time.
- Carry your Partner ID, the pitch deck and demo, and your branded materials.
- Know your college's unique code. Students must register with it.

On the day

- Meet the Placement Officer, Principal or placement head and present Splexus.
- Capture a geo-tagged photo at the college as proof of visit. Obtain consent before photographing any individual.
- Leave materials and the college code; explain that students register and pay on the official platform.

Visit report

Field	What to write
College and city	Name of the college and city
Date	Date of the visit
Who you met	Name and designation
Outcome	What was discussed and agreed
Next steps	Follow-up actions and dates
Proof of visit	Geo-tagged photo attached

Do and do not

Do	Do not
Represent Splexus accurately and professionally	Collect money from anyone, ever
Share only official links and your unique code	Promise or guarantee placements, salaries, offers or outcomes
Obtain consent before photographing or recording anyone	Register yourself, create duplicate or fake registrations, or self-refer
Handle student and institution data only as permitted and follow data protection and DND rules	Share student data improperly or contact people who have opted out
Complete KYC before you earn	Expect earnings for recruiting other partners. There are none.

Self-referrals, duplicate or fake registrations, and misrepresentation lead to immediate disqualification and forfeiture of unpaid commission.

Payouts and support

Getting paid

- Complete KYC (PAN and bank account) to receive your Partner ID and start earning.
- Commission is paid to your verified bank account within 7 days of the customer's payment being confirmed.
- Refunded or cancelled registrations are not eligible, and commission already paid on them may be adjusted against future payouts.
- Payouts are subject to applicable taxes, including TDS, as required by law.
- Programme commission is calculated on the fee excluding GST, on payments actually received; for EMI enrolments it is released as instalments are received.

Important terms in brief

- Partners are independent associates, not employees, agents or representatives of Splexus.
- Partners must be 18 or older.
- Partner tiers (Bronze, Silver, Gold) depend on your own registrations per quarter; details are shared at onboarding.
- Milestone rewards (vouchers, a Redume plan and IIC Programme access) have no cash value, are non-transferable and are redeemable only on Splexus products.
- Commission is paid only on successful, paid registrations or enrolments. Referral commission applies to first-year registrations.
- Campus commission is paid only on successful payments made with the college's unique code.
- There are no joining fees or kit fees.
- Splexus may update commission rates, programme eligibility or terms with prior notice. Rates apply to registrations made after the change.
